

Roberti®
OUTDOOR PLEASURE

Entry Collection
2026

Designed for contemporary outdoor living and contract environments, these collections combine durability, comfort and refined aesthetics. Each seating solution reflects Roberti's commitment to quality manufacturing and functional design, offering versatile products suited to restaurants, terraces, hospitality venues and residential outdoor spaces. Lightweight structures, weather-resistant materials and carefully balanced proportions ensure reliability in intensive-use contexts while maintaining a clean, timeless visual language.

Venturio

The Venturio collection combines refined aesthetics with durability, offering a versatile seating solution for contemporary outdoor settings. Characterised by a lightweight aluminium frame with a natural wood-look finish and a woven PVC seat and backrest, Venturio balances visual warmth with long-lasting performance.

Designed for hospitality and contract environments, these materials enhances flexibility while maintaining a clean, elegant profile suited to terraces, gardens, restaurants and lounge areas.

Altomare

The Altomare collection is defined by its rational design approach, where clarity of form meets practical functionality. Conceived for contemporary contract environments, Altomare combines structural strength with a restrained aesthetic that enhances versatility across different outdoor contexts.

Clean geometries, durable materials and carefully balanced proportions create seating solutions that are both reliable and visually discreet, making the collection ideal for hospitality spaces, terraces and large-scale outdoor projects.
